

Pam Sanders, August Volunteer of the Month

Babies are her business. As Nurse Manager at Tampa General Hospital, Pam Sanders cares about her community and the health and well-being of every baby who is born there.

Pam has led the TGH March for Babies Team for more than 10 years, and under her leadership has raised approximately \$1,000,000. So strong is her commitment to the March of Dimes mission, that prior to the inception of official March for Babies Family Teams, Pam was instrumental in engaging neonatal intensive care unit families in becoming active fundraisers. One of those NICU teams has become a top Family Team raising close to \$15,000 all on their own.

Some highlights of Pam's decade long tenure include the recruitment of Ron Hytoff, President/CEO of Tampa General Hospital as Honorary March for Babies Chair, multiple guests spots representing the March of Dimes on the 'Your Turn with Kathy Fountain' news show, and as keynote speaker at numerous March of Dimes events.

Pam also sits on the Board of Directors for the Florida Bay Division. Congratulations Pam on a much deserved Volunteer of the Month accolade!
